Forecast for Sunday 13 Sep 2020

Weather: Rain expected in the morning, this most persistent across the Perthshire hills and Cairngorms. Drier weather extending north in the afternoon with low cloud breaks. Clearer skies also developing in the northeast of the region by early evening, cloud clearing elsewhere after dark too.

Chance of cloud free mountain/hill tops above 800m: Little chance until mid-afternoon with extensive cloud between 500 and 700 metres. Cloud breaking and thinning from mid-afternoon to allow some warm sunshine, but cloud lingering across the southern Cairngorms until sunset.

Visibility: Poor rain, becoming mostly good in the afternoon.

Met Office Aberdeen Meteorologist's View
Difficult conditions expected at height extensive fog and gales. Storm force winds expected across the Cairngorm Plateau.

Forecast for Monday 14 Sep 2020
Weather: Some low cloud expected in the morning, chance of some drizzly rain over upslopes in the west. Otherwise dry with some warm, hazy sunshine breaking through by afternoon, perhaps a few showers developing from mid-afternoon onwards.

Maximum wind: Southerly gusts 30 to 40 mph on the higher tops

Chance of cloud free mountain/hill tops above 800m: Extensive cloud likely between 500 and 700 metres until mid-morning across the Cairngorms and Perthshire hills, then cloud well above summit level. Angus hills and Deeside seeing little low cloud.

Visibility: Locally poor at first, otherwise generally good.

Temperature: **Glens:** Plus 10 rising to 20 Celsius
At 800m: Plus 14 Celsius
Freezing level: Above summits
